An overview of all the services provided by DSSAB was reviewed, including the size of the catchment area they are responsible for serving. A breakdown of costs was included, and an explanation of the funding model being based on population. The municipal contribution to the 2025 budget is 22%. Assiginack's estimated return on investment for every \$1 is \$3.36.

Donna mentioned two services that are underutilized. Our Kid's Count Program and the Homelessness Prevention Program. She suggests it could be that people are not aware of these programs and stresses for the public to check out their website for information on how to apply for services, A communication officer has been hired to educate the public and inform about the services that are available.
